COLD GRIPS U. S. FROM OCEAN TO OCEAN

Frigid Weather Prevails From
Western Canada South to
Gulf of Mexico

TOLL OF SUFFERING AND
DEATH TAKEN BY BOREAS

Food Prices Stiffen; Homeless
by Thousands Compelled to
Seek Municipal Aid

WASHINGTON, Dec. 15.—The entire country from Maine to California is gripped by cold. The government weather bureau has predicted continued cold tonight and tomorrow, with warmer weather Thursday. The coldest place in the United States today is Devils Lake, N. D., where the mercury fell 20 degrees below zero.

From 24 degrees of cold in Western Canada the icy wave extends to the Gulf regions. Temperatures ranging from 15 below zero in Northwest Kansas to freezing at Corpus Christi, Tex., prevailed throughout Missouri, Kansas, Oklahoma, Nebraska, Iowa and Texas today. All December records in the St. Joseph, Mo., and the Dallas, Tex., weather bureaus were shattered. Yesterday at St. Joseph the mercury registered 6 degrees below zero, while at Dallas a reading of 18 degrees above was recorded.

Originating in the extreme northwest last Friday the cold wave moved rapidly and that it had already reached the east last night is shown by the following temperatures recorded at 8 p. m.:

New York, 24; Atlantic City, 26; Boston, 28; Buffalo, 10; St. Louis, 12; Washington, 20; Philadelphia, 26.

The frigid area even extends to the Gulf regions. At New Orleans, it was 38 last night, and at Jacksonville, Fla., it was down to 44 above.

Alabama Storm Center
The southern storm, which centered in Alabama yesterday, passed out to sea off the Maine coast yesterday, leaving behind heavy snows in parts of New England, New York, Pennsylvania, Ohio and the mountain districts of the middle Atlantic states and a general blanket of rain and slush in other places.

Reports received in Chicago show a toll of four deaths and scores of cases of frozen arms and legs. Two of the deaths were in Chicago and two in Kansas City.

Much suffering was reported to the police and charitable institutions during the day and night, and the demands on the county agent from the destitute were the greatest in the history of the bureau. Four homeless men and boys are cared for by the city. Food prices were stiffened by the cold wave.

NO FROST DAMAGE AROUND POMONA

Temperatures Ranged From 26
to 28 Degrees; Motorcycle
Patrols on Duty All Night

POMONA, Dec. 15.—No frost damage materialized here last night, although the government gauge registered a minimum temperature of 28 degrees. Temperatures ranged to 11 o'clock last night from 26 to 27 degrees in exposed portions of the Pomona citrus belt.

Warnings against a severe frost early this morning were sent broadcast by the local United States weather bureau last evening, and the growers were consequently ready to fight the cold with every modern means. All night the motorcycle patrols made their rounds in the Pomona valley, where the lowest temperatures were reported.

The heaviest frost of the season was expected during the hours just before dawn today, as before midnight the thermometer had dropped one degree below the low mark for yesterday morning at Pomona. The frost of yesterday morning, while it did no damage, served to test out effectively the patrol system. The motorcycle riders made their rounds, visiting the different thermometer stations in the valley and reporting to the central station.

WEATHER FORECAST

For Santa Ana and Vicinity—Fair tonight and Wednesday; severe frost on Wednesday morning; northerly winds.

Cavite Province in Philippines at Point of Revolt

MANILA, Dec. 15.—Insurrectionary unrest is manifest in Cavite province. The military and naval authorities are taking the utmost precautions for the protection of the naval station. The constabulary admit that there is considerable excitement.

The cause of the unrest is believed to be the impending return of the insurrectionist General Riquelme, a fugitive for sedition, from Hong-kong, who has been selling commissions in the revolutionary army for the last two years, in which period scores of his followers have been arrested with documents in their possession.

NEUTRALITY OF BIG CANAL IS PROBLEM

President Opposes Sending
Warships to Uphold It; Secretary of War Urges Plan

WASHINGTON, Dec. 15.—After today's cabinet meeting Secretary of War Garrison wired to Col. Goethals, governor of the Panama Canal zone, inquiring exactly what the latter expects to accomplish with the two torpedo boat destroyers that he requested be sent there to protect American neutrality. If he replies that the purpose is merely to prevent non-neutral use of the wireless station by belligerent warships, Secretary Garrison said he would turn the affair over to the Navy Department.

WASHINGTON, Dec. 15.—President Wilson and his cabinet discussed today the request of Col. Goethals for two warships to preserve the neutrality of the Panama Canal zone. Wide differences of opinion are reported in the cabinet. Presidential Secretary Tumulty said no action will be taken until additional advice from Col. Goethals shall arrive.

President Wilson later gave assurance that there will be no break in the cabinet over Goethals' request. He said the cabinet will decide whether or not the warships are necessary when Col. Goethals makes a more detailed report. If they are necessary, they will be sent.

Garrison strongly favored the granting of Col. Goethals' request, but the President and Secretary of the Navy Daniels opposed the plan. The President said that he regards himself as a clearing house for any jurisdictional disputes arising within the cabinet, and he expects to settle the present disagreement without friction.

The President said that no nation had formally protested against the Arizona "eighty per cent American" labor law though England and Italy and some other countries had inquired regarding it.

President Wilson intimated that he opposes the literacy test in the immigration bill. He said that he does not consider it a real test of the quality of the prospective citizenry. Concerning the passing of conservation laws during the present session, the President said he believes the bill already passed by the House includes everything necessary in connection with water-power development, but he has not yet taken a decisive stand against amending the bill. He said that he hopes to send to Congress before the end of the year his nominations to the Federal Trade Commission. He announced that he would personally discuss the Colorado coal region situation with Governor Ammons later in the week. Until then the federal troops will remain in the strike zone.

\$8,000,000 TACOMA CUT-OFF WAS OPENED TODAY

TACOMA, Dec. 15.—The Tenina cutoff on the Northern Pacific railroad was formally opened today by a general celebration. The construction cost was \$8,000,000. The cutoff gives a water level line to Portland, skirting the Puget Sound.

CORMORAN INTERNED AT ISLAND OF GUAM

WASHINGTON, Dec. 15.—Naval Governor Maxwell of Guam today cabled the Navy Department that the German cruiser Cormoran failed to depart within the stipulated time given it by the United States and is now interned with 355 men and twenty-two officers.

WOMAN IS HURT WHEN BUGGY WRECKED

Mrs. Hattie McRae Has Wrist
Broken in Two Places;
Pinned Under Rig

Mrs. Hattie Bauer sustained two fractures of the right wrist this morning when she and her son, Frank, were thrown out of a buggy. The accident occurred on Lacy street between Washington and Wellington avenues.

Mrs. Bauer lives at West Orange. She was driving the horse, and in the buggy with her was her son, Frank, who is blind. One side of the shafts broke loose from the buggy, and the horse became unmanageable, and began to run. The buggy was quickly overturned, and the occupants of the rig were pinned down beneath it. At the instant the buggy went over the shafts broke loose from it. The horse turned at Wellington, and ran until he reached the driveway leading into the home of George Bauer, a son of Mrs. Hattie Bauer, at Seventeenth and Flower streets.

Mrs. Bauer and Frank were given quick aid by people in the vicinity. Mrs. Bauer was taken into the McRae home at 1212 Lacy, and later to the Santa Ana Hospital. Her right wrist was broken in two places, and she may have some internal injuries.

FORCED INTO WAR, DECLARES SULTAN

Declares Allies Took Initiative
—Shelling of Batum Dec. 10
by Turk Cruiser Reported

CONSTANTINOPLE (via Amsterdam and London), Dec. 15.—Opening the Turkish parliament today the Sultan claimed that Turkey was forced into the European war against her will by the attacks of the allies.

"At the time when our government was firmly resolved to maintain the strictest neutrality," he said, "our fleet was suddenly attacked by Russian vessels in the Black Sea. Then England and France opened hostilities on our frontier. Thus we were compelled to resist the policy of destruction which those powers have at all times pursued against the Mohammedan world, a policy which has assumed the character of religious persecution. Because of this fact I called all Moslems into a holy war."

BERLIN (wireless via Sayville), Dec. 15.—The Turkish cruiser Sultan-Jawus Selim bombarded the Russian Black Sea port of Batum on December 10, setting fire to the city, the cruiser escaping despite the fire of shore forts, according to a message received today from Constantinople. Other Constantinople dispatches said 50,000 armed Russian Mohammedans in the Caucasus region have

THIS is the first photograph of Field Marshal von Hindenburg, considered by military experts to be, with General Joffre of the French army, the greatest genius developed by the war, taken since he has been in Poland. Dispatches show that he has captured Lodz, a city of 450,000 in Russian Poland. This is the third time he has driven his troops into Russian Poland. It is the second time within a few weeks that he came near Warsaw, one of the greatest Russian cities. If he should succeed in taking it he will have dealt a severe blow to the hopes of the Russians. Von Hindenburg was recently made field marshal by Kaiser Wilhelm for his success in the eastern war. He is shown in the center of the photograph.

The London Scottish is the most popular of the British regiments in the war, and this photograph shows the littlest member. A soldier of the regiment who was wounded in Flanders returned and was placed in a London hospital. Soon he made friends with Willie, a little patient. Willie became so important a figure in the hospital that someone provided him with a full uniform of the London Scottish, and he is seen daily parading about the hospital to the amusement of the patients. However, his best friend is the wounded soldier whom he would emulate.

New York Opens 'Buy Box of Oranges' Crusade

NEW YORK, Dec. 15.—A "buy a box of oranges" movement, launched by the Housewives' League, took effect today. It is expected to result in the sales of several additional cars of oranges in the eastern markets.

LOS ANGELES, Dec. 15.—Secretary G. Harold Powell of the California Fruit Growers' Exchange expressed surprise when told of the "buy a box of oranges" movement in New York. "I had not heard of it being contemplated," said Powell, "but the more boxes they will buy the more pleased Southern California will be." He expressed belief that the movement is in line with similar movements fostered by the Housewives' League in the interests of economy. He said eastern fears that there will not be sufficient oranges there for Christmas are unfounded.

joined other Moslems in their fight against the czar.

[Note: The Turkish navy list contains the name of no warship called the Sultan-Jawus Selim.]

TWEEDY SHARES HIS PROFITS WITH WORKERS

DANBURY, Conn., Dec. 15.—Profit-sharing will have a new recruit today when Arthur E. Tweedy, president of the silk mills which bear his name, will give to all his operatives a share in the profits of the company. "He employs about 150 workers. Last January he gave a voluntary increase of ten per cent to all his employees."

HUDSON IS SPEAKER

ROCHESTER, N. Y., Dec. 15.—State Agricultural Commissioner Hudson will be one of the principal speakers during the three-day joint convention of the New York State Dairywomen's and Breeders' Associations, which opens today. Commissioner Hudson is president of the former organization.

GOEBEN BADLY DAMAGED IN ACTION AT BATUM

LONDON, Dec. 15.—A dispatch from Copenhagen says a report received there from Berlin indicates that the battle cruiser Goeben was severely damaged in the recent action at Batum and that it will be difficult to repair it in Turkey.

KNOCKED SENSELESS IN AUTO SMASH-UP

Alvin Washburn of Huntington Beach was rendered unconscious this morning when an automobile in which he was riding with Attorney Wells, also of Huntington Beach, collided with another machine at a point about a mile east of the beach city at about 9 o'clock. Another auto, in passing, rammed the Wells machine, tearing off the top and considerably damaging the front of the car. Alvin Washburn was not seriously hurt.

ISSUE PATENTS TO ORANGE COUNTY MEN

Karl V. Memis, of Los Alamitos, has been issued a patent for a shock absorber and Wilson B. Wigle a patent for a swivel head for drill pipes.

WOMAN FLYER SEEKS WOUNDED

LONDON, Dec. 15.—An aerial arm has been added to the British Red Cross service. One of the members of this corps is a woman, Mrs. Winifred Butler, who is now in active service with the volunteer motor ambulance corps. It is her duty to fly over the battlefield and search for wounded soldiers.

BELGRADE AGAIN OCCUPIED BY SERVIANS

Serbs Triumphantly Enter City;
Austrians Retreating in
Disorder

ALLIES IN WEST MAKE
SATISFACTORY ADVANCE

Situation in Both Theaters of
War Encouraging From
Viewpoint of Allies

NISH, Serbia, Dec. 15.—Formal announcement was made today that the Servians have re-entered Belgrade in triumph. The Austrians are reported as having fled across the Danube in the utmost disorder. Servian territory is now cleared of the invaders except at two points, it is claimed.

The official bulletin said: "The enemy fled across the Danube and Save rivers in the utmost disorder after the evacuation of Belgrade. All Servian territory is now cleared of Austrians except Shabatz and Losnitza, where delivery from them is imminent."

The Servians' triumphal entry into Belgrade was marked by scenes of indescribable enthusiasm. King Peter, the aged Servian monarch, received messages of congratulation from all the allies.

LONDON, Dec. 15.—A combined British and French attack is in progress today against the German line between the railroad and highway extending from Ypres to Lille. It was announced in an official statement this afternoon. Several German trenches have been captured and substantial progress has been made, it was added.

From the allies' viewpoint the campaigns in both western and eastern theaters of the war are proceeding satisfactorily today. Confirmatory announcements in Paris and London told of extensive allied offense movements in the western theater of the war. The Russian war office claimed the absolute check of the German offensive toward Warsaw. The report admitted that detachments of Austrians are penetrating the Carpathians, but denied persistent Vienna claims that large bodies of Austrians are already in Galicia and are assuming the offensive.

LONDON, Dec. 15.—The capture today of Wytschate Woods by British troops in Belgium followed one of the bloodiest fights of the war, according to dispatches received tonight from the front.

BERNE, Switzerland, Dec. 15.—Swiss papers today published renewed reports that Austria had made tentative peace proposals to Russia. They said the discussion ended when the czar named terms that the Austrians claimed were impossible to meet.

BERLIN (wireless via Sayville), Dec. 15.—The bombardment of Sebastopol by the Turkish cruiser Sultan-Jawus Selim, formerly the German cruiser Goeben, was announced today in advices from Constantinople. No details were given. Earlier dispatches told of the bombardment by the same ship of the Black Sea port of Batum.

S.S. SHARON SINKS WITH ALL ON BOARD

MONTREAL, Dec. 15.—Government officials today admitted that the Canadian steamer Sharon has been lost in the Atlantic with all aboard. It is believed the steamer struck a mine on the Irish coast. The Sharon was formerly a war supply ship. At the beginning of the war she was chartered to carry coal to the British Isles.

12-INCH NAVAL GUNS ON ISLAND SANTA ANDREA

ROME, Dec. 15.—Dispatches from Trieste say that 12-inch naval guns have been mounted on the coast defenses on the island of Santa Andrea, just west of the island of Lissa, off the Dalmatian coast.

Foundries are now engaged in manufacturing howitzers of the same caliber, the dispatches say.

GREETER OF PRESIDENTS
WASHINGTON, Dec. 15.—President Wilson yesterday shook hands with Daniel M. Hood of Ipswich, Mass., 81 years old, who has met every president since James K. Polk.

BISHOP FOX TO RETIRE

GREEN BAY, Wis., Dec. 15.—The Right Rev. Joseph J. Fox, bishop of the Green Bay diocese, for the last ten years, will retire in a short time as bishop. He admitted yesterday that he had given his resignation to the Vatican and that it had been accepted.

SOON TO TAKE UP PROJECT OF CONSOLIDATION

If County Assessment is Used,
Must Be Decided Sixty Days
Before Election

As yet the city trustees have done nothing further with the proposal to abolish the offices of city assessor, city tax collector and city treasurer. It is reported that some of the trustees within a few days will have a conference with county officers to determine the system that is possible under the law whereby the county assessment can be accepted by the city and the city's tax computation and tax collecting be done by the county.

The reason given some years ago for taking the assessment into the hands of the city was that the county's assessment of the city was so low that a tax rate could not be levied sufficiently high to raise funds to run the city government. The city's assessment of Santa Ana is still higher than the county's, and it may be that the county's assessment is too low to provide sufficient funds. That is one matter to be investigated.

Under the state law any city may turn its assessing over to the county, as well as its tax computation and collection. An ordinance to accept this plan must be passed not later than sixty days before election. The next city election comes the second Tuesday in April.

STATE HIGHWAY WORK IS RUSHED NEAR SAN DIEGO

SAN DIEGO, Dec. 15.—The Torrey Pines road, on the state highway, will be ready for traffic the middle of January. The city is constructing about a mile and a half of the road.

Men were put to work yesterday on the Sorrento grade, so that autoists coming to the exposition will be better able to make use of it before the Torrey Pines road is completed.

CHRISTMAS MORNING

Should Find You
Ready for the Day

Of course you're going to have turkey and cranberry sauce and plenty of Mince Pie. Not only has Mince pie become a National Dessert for the holidays, but for all occasions and at all seasons.

Making mince pie today, however, is an entirely different proposition from what it was in former times. The good housewife no longer fumes and frets, pares and pits, preparatory to making up a batch of mince meat. Instead she orders a package or two of "None Such Mince Meat" from her grocer—and, presto! Mince Pie "like mother used to make," with one-tenth the work and worry.

When you order mince meat from your grocer, be sure and specify the "None Such" brand, then you are absolutely sure of getting the best mince meat that money will buy. The enormous sale of "None Such" Mince Meat for thirty years is positive proof of its excellence.

Do not confine your use of "None Such Mince Meat" to Mince Pies alone. It is also delicious when used for fruit cake, fruit pudding and Hermit cookies. Proven recipes for these popular desserts will be found on each package of "None Such Mince Meat." One trial will make them a regular article of diet.—Advertisement.

BRIEF VISIT HERE BY CADILLAC 'EIGHT'

Santa Anans Enjoy Ride From
Los Angeles Here In the
New Model

One of the most unique automobile rides taken lately by Santa Anans was had last night when George S. Smith, C. H. Perkins, H. Clay Kellogg, H. H. Kelly and C. H. Lowe rode down to this city from Los Angeles in one of the new 1915 8-cylinder Cadillac cars, driven by Demonstrator Lewis.

The local men had visited the Cadillac agency of Don Lee in Los Angeles. Owing to the difficulty of getting a practical demonstration in Los Angeles, because of the great demands on the available Cadillacs, Don Lee suggested that Lewis bring the Santa Anans here in the new seven-passenger.

Lewis put his motor in high gear when he left the Cadillac home in Los Angeles and never shifted a gear until he got on the floor at the local Cadillac agency on North Main street. This performance is one of the most remarkable that the Santa Ana men had ever seen done by an automobile of any kind. All were enthusiastic about the easy-riding qualities of the Cadillac, its total lack of vibration and the ease with which it climbed the hills between Los Angeles and Santa Ana.

When half way up the La Habra hill George Smith suddenly called out: "Wait a minute! I've lost something!"

Lewis brought the car to an almost complete stop. Then Smith began laughing.

"Go ahead," Smith said, "I was only fooling."

Without touching a gear, Lewis "shot" the Cadillac on over the hill.

The occurrence is mentioned to substantiate the statement that no gears were shifted on the entire trip from Los Angeles. Believing that there would be many Santa Anans who would like to get a look at the new 1915 8-cylinder, Kelly and Lowe telephoned to their garage here before they left Los Angeles. In spite of the fact that the garage boys had only about an hour's notice there was quite a crowd at the Cadillac headquarters on Main street when Lewis and his party drove up. From 7:25 o'clock until 10, when Lewis left for Los Angeles, there was a steady stream of visitors at the garage. Kelly estimated that in the short time that the car was here upwards of 300 people took a look at the new "Cad."

Before Lewis left his return trip to Los Angeles he took C. W. Burns, William Cochems, Dr. P. R.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Is Sign You
Have Been Eating Too
Much Meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog, you must relieve them like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, does not injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

As proof of the tremendous interest that has been excited in the car and of the wonderful fascination that it has for those interested in automobiles it need only be said that H. AMUSEMENTS

No book of the past year has found greater favor with the reading public of this country than has Julie M. Lippman's quaint story of humor and sentiment, entitled, "Martha By-the-Day," which has now been put in play form by its author, given the same title as the book, and is being played with splendid success by America's funniest comedienne, May Robson. Miss Robson and her company, in the new comedy, will be seen at the Grand Opera House Thursday, this week. Miss Robson has a long list of eccentric comedy characterizations to her credit and there is every reason to anticipate that her present role will prove the most notable of all parts that she has created. The story abounds in humorous appeal and carries the appeal of freshness and originality.

TEMPLE THEATER

December 14, 15, 16.

Synopsis
The famous racing play, "His Last Dollar," with David Higgins in the role originally created by him, is the most thrilling drama of its type ever produced in America. There is a fine thread of comedy interwoven with the more stirring action. The plot develops logically and with cumulative interest. The success of the original production was so decisive and notable that the title of the play has a by-word in racing circles, and for many years a "David Higgins" has been commonly accepted as representing the last dollar in one's possession.

Fine Comedy at Clune's
By far the biggest hit of all the fine acts of the first-of-the-week bill at Clune's is made by Mabel Normand, Roscoe Arbuckle and the others of the famous Keystone players in "The Sea Nymphs," a rollicking farce which is as good as anything that has as yet been staged by the Keystone movie people. Of plot the farce has absolutely none. But why worry about that say the delighted people who were fortunate enough to see it at Clune's last night. The skit is as full of lively and laugh-provoking incidents as a toothbrush is of bristles and no one stops to consider that the events are hung together by the merest thread of plot which threatens to break upon the slightest provocation.

The demure yet altogether lively Mabel Normand, attired in a chic Annette Kellerman suit, makes one of the most charming and altogether bewitching modern sea nymphs that it

will ever be the good fortune of movie patrons to see. In "The Sea Nymphs" Miss Normand proves that she is every whit as good a diver and acrobatic expert as she is a comedienne. She does a number of fancy and graceful diving stunts during the action of the comedy that stamp her as a finished water woman.

Roscoe Arbuckle in a bathing suit! No one could imagine anything funnier than this. Then there is the heavy-mustached "Ambrose." To see him rollicking on the sands of the beach at Avalon, where "The Sea Nymphs" was taken, is in itself worth the price of admission.

Lester and Moore, billed as the "Yankee Doodle Girl and Her Soldier Boy," and Henry and Hamilton, society entertainers, furnish the vaudeville end of the bill in a very acceptable manner.

"Hope's Foster Mother," a two-part Vitaphone drama, satisfies with its pathos and its truth to life.

The Rush of Christmas Buying Is On

From all indications the people of Santa Ana appreciate a 5c, 10c and 15c store where the limit is fixed and you know when you come in that you will not have to pay more than this for any item in the store—everything marked so that you can make your own selections at your leisure and without bother—at small cost and big satisfaction—toys of all kinds for the little folks—toy brooms, little chairs, furniture, doll beds, doll houses, play house outfits, clothes baskets, wash boards, boilers, clothes lines, pins and pulleys, pastry sets, and household utensils, story books, picture books, linen books, drawing books, and dolls, dolls, dolls,—for the small boys, knives, drums, horns, cornets, marbles, tops, holsters and pistols, guns, swords, wheelbarrows, wagons, and games of all kinds, for the older ones all the late popular music, boxed writing paper and correspondence cards in fine linen finish quality, put in Xmas boxes, kodaks and post card albums. Why, I can't begin to tell you all about it, it's just like a big Christmas tree with something for every one—not the extravagant kind that are sometimes not appreciated, but the things they want. Come and see, you'll enjoy it—and the price, well, there's nothing over 15c, and lots and lots of things for 10c and 5c.

OLDFIELD MAY APPEAR HERE ON CHRISTMAS

Barney Oldfield, "Master Driver of the World," will be seen at the wheel of his famous Flat Cyclone at the Santa Ana race track on the afternoon of Christmas Day and "Mickey" McGuire, known throughout the East as one of the most daring aeroplanists in the world, will be seen in daredevil loop-the-loop and upside-down flying, if present negotiations between Oldfield and Dr. H. J. Stevens, Wilfred Collins and Nelson Stafford of Santa Ana are successfully consummated.

At noon today, C. J. Bennett, treasurer of the Pacific Motor Racing Association, was taken out to the Santa Ana track by Dr. Stevens, accompanied by Collins, Stafford and a Register representative. Bennett expressed himself as being entirely satisfied with the present condition of the track. He stated that he had no doubt whatever but that Oldfield would agree to reasonable terms for appearing here on Christmas day.

If the deal is put through, the program, as arranged throughout various cities of the East where Oldfield and McGuire have appeared, will consist of a mile race between Barney, driving the Flat Cyclone, and McGuire, at the wheel of his fast aeroplane. This will be the main event of the day. In addition Barney will drive at least two exhibition miles. Bennett said this morning that Oldfield will bring down to Santa Ana the powerful Christie 300-horsepower racer in which Oldfield has broken many world's dirt track records.

In addition to the race between the automobile and the aeroplane there will be staged one of the most thrilling exhibitions of flying ever seen in Orange county, McGuire looping the loop and doing other death-defying stunts never before seen here.

McGuire was the sensation of the Phoenix air show which was held during the running of the Los Angeles Phoenix race. He has never appeared in Los Angeles but has a reputation in the East as being one of the most reckless birdmen in the profession.

The Flat Oldfield is to drive here is the same which he will pilot Sunday at Los Angeles in his 50-mile race with Bob Burman for the world's dirt track record championship.

THE CITY TRUSTEES ON THE RIGHT TRACK

There can be little doubt that some of the City Trustees have under favorable consideration the proposition of abolishing the offices of City Treasurer and of Assessor; leaving the work of the former to the City Clerk, the City Marshal (who is, ex-officio, City Tax Collector) and the bank or banks in which the city funds may be deposited, and that of the latter to the County Assessor. Also it is proposed to have the tax collecting done by the County Tax Collector instead of through the Marshal.

It is not strange that such a proposition should be favorably entertained by the City Trustees; the strangeness is that the proposition has not been favorably acted upon long ago. It is so chock full of common sense and practical economy that it must commend itself to all intelligent people.

As to the City Treasurer, what necessary or useful function does he perform that is not duplicated by the City Clerk, the City Tax Collector or the bank? None whatever. It isn't necessary to have a City Treasurer in order to safeguard the city funds by bond; and as to accuracy of accounts and counter-checking them, these things can be secured through the City Clerk and the Tax Collector and the bank fully as well as through the City Treasurer.

As to City Assessor, he simply duplicates the work of the County Assessor. Why not take the County Assessor's valuations, and increase or decrease this or that class of property, as may be deemed advisable, and let it go at that? This would give us exactly the same results we now obtain, at a tithe of the cost of the present system. While the raise of assessment may not be legally possible as suggested, still it is our impression that the assessment as now made by the county would provide sufficient revenue, even if the rate had to be raised.

The approval of this proposition is no reflection on the excellent gentlemen and women who occupy or who may aspire to the respective positions of City Treasurer and City Assessor.

CONVICT MANAGEMENT

Thomas Mott Osborne, the new warden of Sing Sing prison at Ossining, N. Y., has just put in effect a system of honor rules. Much of the discipline will be handled by the convicts' organization. For the first time in the history of the institution, the rules were not broken the day after the new system went into force.

The great outside world comfortably imagines that prisons are well regulated. If any one suggests new ideas he is told that jail life must not be made too comfortable or it will be deterrent to crime. Yet many famous prisons are hells on earth. Loathsome diseases are communicated to cleanly men. Cells are so damp that if a convict spits on the floor, the moist spot does not dry out for a week. Some notable prisons have no plumbing in cell houses, and the stench is intolerable.

Wonderful results are being accomplished under the new ideas of convict management. At Comstock, N. Y., is a typical one of many experiments. The 600 prisoners cultivate a 100 acre farm, and the guards are unarmed. The convicts are jealous of the honor and reputation of the camp, and insubordination is not tolerated by them. Only two out of 1000 inmates have ever run away. Men leave the farm when their work makes it necessary for them to do so. There are ball games and other amusements. Most of these men will leave the camp converted into producers and industrious men.

Farm work is the best employment for prisoners. In other trades, craftsmen are naturally jealous of prison labor. Many prisons find nothing for their inmates to do but odd jobs like

caning chairs. Such work can rarely be a means of subsistence after they leave. No union label is ever called for on potatoes or cabbages. There is always a shortage of food products.

state large areas of land are being held out of use, preventing the development and growth of the country and the towns. Through the San Joaquin and Sacramento Valleys he found the taxes on these large tracts of unimproved land to vary from five cents an acre to thirty cents an acre, while the farmers in the same sections who have improved their farms and developed the country are compelled to pay a tax on their land, improvements and personal property averaging from \$1 to \$10 per acre, according to the size of the farm and the value of the improvements.

The most glaring example of the injustice of our tax system, Troy said, is the 533,000 acres of the finest land in the San Joaquin Valley, situated in Merced, Madera and Fresno counties, owned by Miller & Lux, on which their total tax averages but twenty-five cents per acre. South of Tehachepi, Troy says, he found the Southern Pacific Company to own 650,000 acres in each of a number of counties, and its taxes ranging from two to five cents per acre. On the other hand he found the farmers down there who have orange and lemon groves to be paying a tax averaging from \$17 to \$20 per acre, in many cases \$30, some \$40 and a few \$50 per acre. Troy says this is the tax paid and not the assessment on the land. He says that the only means by which the farmers can be given relief from this terrible burden of inequitable taxation is the exemption of their improvements and personal property from payment of taxes.

BANQUETED PHILATHEAS

Baracas of First Presbyterian Were Successful Hosts Last Evening

The young men of the Baraca class of the First Presbyterian church were hosts last evening to the Philatheas of the same church. Rev. and Mrs. J. A. Stevenson and the respective teachers of the Baracas and Philatheas, Mr. and Mrs. J. G. Morrow, were also guests.

The delightful affair was in the nature of a reception and banquet and was held in the classrooms of the two classes which are spacious and well adapted to social events. Pots of carnations were placed in pairs through the center of the tables used for the serving of the banquet. Ferns entwined the handrails and were used profusely elsewhere. The young men were responsible for the charming decorations as well as for all the other arrangements of the evening.

There were fifty-seven people seated at the table, and Rev. Mr. Stevenson, introduced by Leon Dickey, way toastmaster. In his inimitable way Dr. Stevenson opened the feast of reason following the nicely served and appetizing banquet. His introduction of the various speakers was equally as happy as his entertaining preliminary talk. Those responding to toasts were Messrs. John Fleming, Jack Palmer, J. G. Morrow; Miss Zelma Sturgeon, Miss Marguerite Wallace, Miss Thacker. Following the toasts, flashlight pictures were taken of the company.

The menu for the five course banquet follows:

Fruit Cocktail
Mashed Potatoes
Chicken Gravy
Celery Radishes
Cranberry Sauce
Nuts
Candy
Coffee

Bible Class Changes Place
Through the courtesy of Rev. Mr. Scarborough and his people the Bible class conducted by Rev. W. Leon Tucker of Los Angeles will hold its meeting in the M. E. Church South, this evening, instead of in the First Baptist church as usual, on account of conflicting meetings there.

Mr. Tucker will give his second lecture on the gospel of Matthew, and from the second division of the book presenting the sacrificial work of Christ as "Abraham's son for the altar." The first division presented him in his official glory, "David's son for David's throne," the whole being summarized in the first verse of the book. Mr. Tucker considers his outline of this book his most helpful one for Bible students.

The time for the lecture is 7:30 and all are invited to attend.

EBELL MUSIC SECTION

American Musical Schools Is Subject of Study—Pleasant Program Rendered

The subject presented to the music section yesterday was American Musical Institutions.

A very interesting paper on this subject was read by Mrs. Rafferty who compared American schools of music with European schools and American ideals with foreign ideals.

The following program was rendered: Moto Perpetuo (McDowell) Miss Armstrong. Love Me If I Live (Arthur Foote) Mrs. Winbiger. (a) Fortzler, (b) Spanish Dance (Arrillago) Mrs. Peek. It was a Lover and His Lass (Dudley Buck) Mrs. Phillips. Legend For a Child (George Whitling) Mrs. Padgham.

(a) Awake Little Flower, (b) The Faded Rose (Gertrude Sans Souce) Miss Helms. Kleine Caprice (Arthur Foote) Miss Glidden. The Spring Has Come (Maud White), Ghosts (Margaret Lang) Miss Montgomery.

For Miss Hinkley
Miss Myrtle Hinkley of Saginaw, Mich., who is spending the winter in Santa Ana, was the complimented guest at a recent dinner party given by Miss Ruth Burns. Poinsettias adorned the table and red individual candles at the covers completed a glowing color scheme.

Miss Jane Stanley gave pleasure to the diners in the evening following by giving some delightful piano music.

Miss Burns' guests included Miss Hinkley and Miss Nellie Vos of Saginaw, Miss Zoe Bragg of Portland, Oregon, Miss Lenore Shirley of Enid, Okla., Miss Hallie Whidden, Miss Jane Stanley, Miss Corrinne Burns.

SAWYER-WALKER

Well Known Young People Pledge Vows at the Home of the Bride's Mother

One of the prettiest home weddings of the season took place today at the home of Mrs. Laura Walker on Riverine avenue, when her daughter, Miss Julia Ruth, was united in marriage to Mr. Frank Sawyer. The nuptials occurred at high noon in the presence of the immediate relatives of the bride and groom.

Miss Margaret Flagg acted as maid of honor and the groom was attended by Mr. John Murphy.

Exactly on the hour the four young people took their places beneath a wedding bell, composed of white roses, and Rev. Mr. Inwood, of the First Methodist church, impressively repeated the beautiful ring ceremony.

At 1 o'clock all repaired to the beautifully decorated dining room where the wedding cake was cut and an elegantly appointed luncheon was served.

The bride was attired in pale yellow crepe de chine with gold lace and pascimenterie trimming and carried a bouquet of white carnations and maiden hair ferns. Miss Flagg wore pale pink satin with an overdress of yellow chiffon and carried pink carnations and ferns. Both the groom and Mr. Murphy wore conventional black.

The bride is a charming and well known young lady who has lived in Santa Ana all her life. Mr. Sawyer is engaged in business in San Diego and is well known and liked in Santa Ana where he formerly lived. The happy couple left at 3 o'clock on a short honeymoon trip and will be at home to their friends after January first at the St. Anthony Apartments in San Diego.

A large host of friends extend their congratulations and best wishes.

While the wedding party was proceeding to its place, Mendelssohn's wedding march was played by Miss Sarah Gardner, and during the progress of the ceremony Miss Gardner played softly "O Promise Me."

A Lincoln School
The Parent-Teachers Association of Lincoln School will meet in the kindergarten room at 3:15 on Thursday afternoon.

A special Christmas program has been prepared. Miss McFadden, of the public library, will speak on "Books For Children." All parents are urged to be present.

McKinley P.T. Association Meets
It takes more than clouds and threatening weather to dull the interest of the members of the McKinley Parent-Teacher's Association, as on last Thursday there were about fifty at the business session. Following a brief business session the following was rendered: Piano duet, Luella Harmon and Alma Laughlin; reading, Mrs. Samuel King; violin, Glenagene Hill and Helgard Terrell; address, Rev. Paul E. Wright. Rev. Mr. Wright's talk was along the Christmas-giving thoughts, more particularly the sins of giving. He held undivided attention and there were none but what could get valuable suggestions and inspiration from his words.

On counting the mothers, the banner was awarded to the sixth grade under Miss Richerich. Refreshments were served and the usual social hour enjoyed.

Next Friday, the weather permitting, McKinley school will hold an open-air Christmas festival in the park, having a real tree decorated for their Christmas tree.

Wanted—A Christmas Tree
Christmas Day is drawing near and yet the Ebells Nursery is without a tree on which to hang the gifts that Santa Claus and a kind-hearted, generous public may provide. The Yuletide tree should be received at the nursery by Saturday next, although the gifts will not be distributed until the day before Christmas.

Who will give the Christmas tree for the tots at the Day Nursery?

Party at Seal Beach
Miss Hazel Kendig, who is a Santa Ana girl, but who is teaching in Seal Beach, was hostess on Saturday at a pleasant party where the amusements consisted of a taffy pull, games and music and boating. Miss Kendig's guests included the Misses Helen Haskins and Winifred Roberts, of Santa Ana; Miss Davis of Los Angeles;

A smoking jacket makes a practical Christmas gift

A home loving man goes home from work, has his dinner and then finds solid comfort in an easy chair, with a pipe or cigar and the evening newspaper.

Add to his comfort—make it as complete as you can. A smoking jacket means no more ashes on his clothes.

It's a good way to earn his lasting gratitude, practical yet inexpensive.

You'll find other suggestions on the checking list if he already has a smoking jacket.

Literary Meeting and Tea
The ladies of the Missionary Society of Spurgeon's Memorial Methodist Episcopal Church, South, will hold their regular monthly Tea service in connection with the literary meeting on Wednesday, Dec. 16, at 2:30 in the church parlors. All the ladies of the congregation are cordially invited.

Sunshine Bazaar and Sale
The Sunshine Society achieved much success in its sale last Saturday, and is planning to dispose of the unsold articles at another sale to be held next Saturday at the Santa Ana Garage, 216 East Fourth street. Cooked food will also be on sale.

It is devoutly to be hoped that the Sunshine ladies will have a generous patronage as they do thoroughly good and unselfish work with the money derived from all sources.

Miss Anna Tibbets is the new treasurer of the society.

Missionary Society to Meet
The congregational Missionary Society will meet with Mrs. William Douglass on North Main street on Wednesday afternoon at 2:30 o'clock.

Mrs. L. B. Strong will review the first section of "The Child in the Midst." Miss Rena Cranston will give a whistling solo and Mrs. Johnson and Mrs. Chapman will sing a duet.

The hostess gives a special invitation to all the ladies of the church and congregation.

The Douglass driveway is the second north of the bridge on the East Side and the Orange cars will stop.

Philathea Class Social
The Philathea Class of the First Baptist Church held its regular monthly meeting and social last evening at the home of Miss Ida May, 520 East Fifth street. Fifteen members of the class were present besides the teacher, Mrs. E. G. Holmes. This class is making preparations to help a needy family, this movement on the part of the class to constitute a part of the Christmas giving exercises to be held by the church and Sunday school on Sunday evening before Christmas.

After the business session those present busied themselves in making candy bags for the Mission Sunday School at Delhi. Instrumental and vocal music by Miss Mame Havens and Miss Blanche Minter was enjoyed. Refreshments were served at the close of the evening.

Miss May had very prettily decorated her home for the occasion, using bouquets of poinsettias and many Christmas baubles in developing the red and green colors significant of the near-by Christmas time.

Masonic Election
At the last meeting of Santa Ana lodge, No. 241, F. and A. M., the annual election of officers was held, resulting in the selection of L. F. Harvey, W. M.; W. V. Whitson, S. W.; S. C. Rowland, J. W.; Max Reinhaus, treasurer; R. W. Mead, secretary.

The date for the installation has not been fixed, but is scheduled for some time about the middle of January.

Beach Week-End Party
Mr. and Mrs. H. T. Rutherford entertained a small week-end party of

Los Angeles friends at their charming East Newport cottage. The young people attended the dance at Balboa on Saturday night, chaperoned by their host and hostess. All the usual delights of the beach were enjoyed over the week-end.

Those enjoying the hospitality of the Rutherford family were Misses Frances and Ruth Bingham, Ruth Frackleton, Belle Mattern and Ray Squires; Messrs. Ramboz, Clone, Greenland, Casson and Bingham.

Personal
John Hall is at home from the State University at Berkeley for his Christmas vacation.

Mrs. J. A. Buckingham of South Flower street is improving from a severe illness.

Mr. and Mrs. James Cameron, former residents of Santa Ana, have returned here to live, coming from Redondo Beach.

J. N. Anderson was a visitor to Los Angeles today.

H. B. Short, superintendent of schools at Oroville, was a guest of the W. D. Barkers as he stopped here on his way to attend a school superintendents' meeting at Riverside.

Miss Pauline Jacobs and Miss Linna Yarnell have returned from a visit at the Los Angeles home of Dr. and Mrs. J. W. Shaul.

Mrs. E. C. Yarnell, mother of M. A. Yarnell, is at home after a three-weeks' visit with relatives in Los Angeles.

Mrs. Nessa Jordan spent today in the Angel City, her cousin, Mrs. W. E. Barnum of Orange, accompanying her.

"CRIME AND PENOLOGY"
TOPIC OF MONDAY CLUB

The Monday Club listened to a most excellent paper last evening written by the secretary of the club, Mr. Ben H. Barr, on the subject of "Crime and Penology." The theme is one of timely interest and Mr. Barr's treatment was comprehensive and scholarly. He defined crime and the criminal and traced the evolution of theories of punishment through four stages, viz: (1) Vengeance or retribution, (2) Repression, (3) Reformation and rehabilitation, (4) Prevention.

The speaker showed in an interesting way how penology has points of contact with nearly every science and art, especially biology, government, philosophy, religion, pedagogy, psychology and sociology. Death is the most ancient of penalties, the most effectual mode of getting rid of troublesome characters. The various methods of taking human lives were mentioned: Burning, hanging, drawing, quartering, breaking on the wheel, crucifixion, crushing, stoning, burying alive, boiling, starving, poisoning, shooting, and lastly electrocution.

The criminal today has become an object of attentive scientific study. The attempt to reform him has led to the invention of three systems of prison discipline, known as the Pennsylvania, the Auburn, and the Elmira systems, and penologists are divided into three camps according as they favor one or the other of these systems. Neither system can boast of complete success, but it may be said that each has done much toward the reformation of the criminal. All agree that the principal hope of any material reduction in the volume of crime lies in its prevention, rather than its cure. The remedy must be sought in moral hygiene.

The speaker carefully defined crime and distinguished it from vice and sin, and then dealt with the causes of crime. Every crime has its origin in a multiplicity of causes ramifying back into our entire social life. Crime is a variable quantity, the product of the aggregate social condition and tendencies of a people at a given period in its history. Roughly classified the causes fall under three heads: (1) The material basis, (2) Cosmic causes, or the natural environment, (3) The social economic causes.

Alcoholism is one of the most powerful factors in the category of causes. The most evident and serious effects

FAVORS PAVING TO COUNTY LINE OF RIVERSIDE

Highway Commission Already Decided Upon Concrete, Olive to Peralta

THE STANTON AND EL TORO ROADS COMING

Generally Believed That Paving Above Peralta Would Be Advisable Move

It is highly probable that the County Highway Commission will pave the Santa Ana canyon road from Olive to the Riverside county line. A great many people who have studied the matter are of the opinion that such a move is in the best interests of the entire county.

The commission has already decided to pave between Olive and Peralta, a distance of about six miles. The contract that has been let for that road is for a dirt road only, but when the dirt road is finished the concrete will be put down, and the road finished as are other roads of the county system.

Riverside people are very anxious that the road be paved all the way to the county line, and the county authorities here have the assurance of the Riverside road officials that Riverside county will pave its road to the line. That will give Riverside

people a paved road all the way to the ocean. Today the Board of Supervisors was asked to set January 6 as the time for receiving bids for the build of good roads between Anaheim and Olive. That is the last section to be improved under the original good roads plan upon which \$1,270,000 bonds were issued. There is every indication that after all the roads are built as originally planned, there will be well over \$100,000 left. The commission expects to pave the road between El Toro and the state highway, and to pave a road running east and west north of the Stanton city limits. The paving in Santa Ana canyon will cost about \$8000 a mile, and there are about seven miles between Peralta and the county line. It has been learned that all three of the county highway commissioners favor the paving of the Santa Ana canyon road. They are of the opinion that it will not only make better traveling, but also will make maintenance less expensive.

ULTIMATUM SENT TO MEXICAN GENERALS

Orders Wired Gen. Bliss to Halt Mexican Firing Over Line in Border Battles

WASHINGTON, Dec. 15.—A decisive plan of action to stop Mexican firing into Naco, Arizona, was reached at the president's conference with the cabinet today. Orders said to be definite and decisive were telegraphed General Bliss at Naco. These will not be published until they reach General Bliss. It is understood, however, that a curt ultimatum, couched in unmistakable language, will be sent to Generals Maytorena and Hill, commanding Villa and Carranza troops. The members of the Cabinet declared that the plan adopted will not entail a clash between the Americans and Mexicans. Secretary Garrison this afternoon ordered three regiments of infantry and three batteries of artillery to Naco, Arizona, to reinforce the troops already there.

WASHINGTON, Dec. 15.—Secretary of War Garrison today handed to the State Department a report from General Bliss at Naco, Ariz., the substance of which was that apparently only decisive measures will end the shooting into American territory by Mexican belligerents.

Secretary of State Bryan today continued his efforts to persuade Provisional President Gutierrez to order the withdrawal of Villista forces under General Maytorena.

General Bliss apparently firmly believes that an American volley across the border would end the trouble. But he still remains under orders to refrain from firing except on specific instructions from Washington.

EL PASO, Tex., Dec. 15.—A volley of shells fired from Gen. Benjamin Hill's new artillery yesterday dislodged Maytorena's troops from two strong positions held by them for weeks.

Another detachment of Maytorena troops met severe defeat at the hands of the constitutionalists on the Nacozari railroad between Chichuata and Esqueda, about forty miles south of Agua Prieta.

CLEVELAND MAN IS CHARMED WITH CITY

Expressing himself as being delighted with Santa Ana and surrounding country, A. W. Getchell, consulting engineer for the Hartford Insurance Company, of Cleveland, today made a number of highly enthusiastic remarks about the climate, the roads and the general appearance of prosperity and progress he has found in the few days he has been here from his home in the East. Getchell is registered at Hotel Rossmore. He is visiting with friends here, among whom are W. D. Johnson, at the Colonial apartments, 301 South Main street, and William Sylvester, of the Roehm-Sylvester Company, tobacco wholesalers in the Meyers block.

"I am particularly pleased with the splendid roads in this county," said Getchell. "Back in Cleveland, before I came on this, my first trip West, we let the air out of the tires of a runabout and a seven-passenger Garford, which I own, jacked up the cars, and locked them up for the winter. Seven months in the year, back there, it is impossible to drive a machine. Out here in California, and particularly Southern California, it is possible to drive all the year round."

"I have spent a great part of my time in the Southern states and have found a fairly equable climate, especially in the winter. But one thing that they lack down there and what you have here is good roads. When you are motoring in Louisiana, Florida and others of the Southern States and you come to a cross-roads, both of which do not look inviting for travel, and ask one of the natives which is the better of the two, you get the reply, 'Take either one—both lead to the same place.' And pretty generally

MELBOURNE INMAN DEFEATS HOPPE IN THE ENGLISH GAME

you find that one is just as bad as the other.

"The climate I find here is nothing short of wonderful," Getchell continued. "People at the hotel here laugh at me when I tell them that I sleep with no more over me than a sheet. I don't do that to be original, but simply because I don't require more covering. I suppose if I were to be here for six months or a year I would get like the others here and require more covering."

"The other day we motored down to one of the beaches. I was positive I was warm with my overcoat on but did not take it off because I knew that those with me would have thought I was a little 'off,' or at least trying to be eccentric."

Getchell stated that he was so well pleased with Santa Ana and vicinity that he had practically decided to invest in property and eventually to make his permanent home here. He will remain about six weeks before returning to his home in Cleveland.

Melbourne Inman, world's greatest exponent of English billiards, last night defeated Willie Hoppe before a large audience at the Los Angeles Athletic Club. The British champion scored 751 points in sixteen innings, with high break of 227, and an average of 46 15-16. Hoppe made 293 points, with high break of 98 and an average of 18 5-16. Hoppe was clearly outclassed in mastery of position play and direct execution. The world champion at all styles of billiards made his best run in the fourth inning when he "nursed" the ivory in true American fashion until compelled by the rules to abandon direct caroms, after which he soon lost control, stopping at 98. Inman, in running his

227, played a winning hazard on Hoppe's ball, and, having thus lost the use of it, ran the last forty points on the lone red. This demonstrated to audience the manner of executing the losing hazards consecutively in the side pockets.

GIRL DIES OF INJURIES IN BASKETBALL

ORANGE, Dec. 15.—Dena Frances McNeal, aged 11, died here last night of a fracture of the hip sustained last Saturday while playing basketball at Lemon street school. Inflammation and other complications which set in in the fracture were responsible for the girl's death. She lived with her aunt, Mrs. Martin, on East Palm avenue.

Refuse Demand
At a meeting of the Orange city trustees last night, George A. Rogers presented a demand for \$2130 for second payment on a steam roller purchased by this city last January. The original purchase price of the roller was \$3800. In January the city made a first payment of \$1800 and agreed to make a second payment of \$2000 and interest on December 1. Thinking that the roller had been misrepresented to them and that the original price was exorbitant, the trustees refused to meet Rogers' demand and turned the matter over to the city attorney.

LESTER CHOSEN AS CLERK OF SANTA ANA

It Took 102 Ballots For City
Trustees to Reach a
Deciding Ballot

BUILDERS ARE ASKING FOR NEW ORDINANCE

Council Decides to Leave It to
Committee to Revise the
Present Law

On the 102nd ballot, C. D. Lester was appointed city clerk to succeed Joe C. Burke, resigned. Lester is the present county auditor. His term in that office ends on January 4. His appointment last night came after a great variety of switching back and forth in the voting. Fifty-two ballots were taken last night. Those who at times had two votes were Ed Tedford, A. P. Dresser, J. M. Backs, Alvi Stedman and Cecil Dubois.

About two weeks ago Lester became an aspirant to succeed Burke, who resigned so that he will be free to go to the legislature as assemblyman. In the fifty ballots taken a week ago last night no vote was cast for him, yet it was known that he stood an excellent chance of being appointed.

Last night ten ballots had gone by before he got a vote. On the eleventh he got one vote, on the twelfth two votes, and thereafter he got two votes upon each ballot up to the fifty-second, when he got three, excepting on the thirty-third, forty-fifth and forty-ninth ballots when one of his votes went to Stedman.

The first ballot stood: Ed Tedford, 2; O. S. Shaw, 1; Alvi Stedman, 1; P. L. Pople, 1. The second was: Tedford, 2; Stedman, 2; Dubois, 1. Dresser got two votes in the sixth. After the ninth ballot, C. S. Shaw withdrew from the race.

After the thirty-second ballot last night, Trustee Alderman moved that the board proceed to other business. Alderman and Greenleaf, however, seemed determined to finish the race last night, and balloting was resumed. No material changes developed. Later when the suggestion was made that the matter be continued another week, Ey said: "Let's make it an even fifty." When the fiftieth was reached the vote stood: Lester, 2;

Tedford, 1; Dresser, 1; Dubois, 1. "Let's try once more," said Grubb, and try they did. It stood, Lester, 2; Tedford, 2; Dresser, 1.

Grubb and Greenleaf whispered to each other, and asked for another ballot. It was taken, the fifty-second taken last night, the 102nd on the appointment, and the result was: Lester, 3; Tedford, 1; Backs, 1. Backs had no aspirations for the office, but received a scattering vote.

Lester will take the clerkship the first of the year, for the unexpired term, which ends in April.

Want Plans Filed
A. C. Black presented the following petition:

"We, the undersigned, being contractors and builders, or wholesalers, or retailers, in building material, or furnishers of building supplies and fixtures, do hereby petition and ask that you change, revise and amend the ordinance or ordinances of the city of Santa Ana lowering the construction of buildings therein so as to make it obligatory for persons, firms, associations, companies and corporations contemplating the construction of buildings in the city of Santa Ana to file with the building inspector thereof, and make the same a public document, the plans and specifications finally adopted for such buildings, and to permit said building inspector to examine and inspect the said plans and specifications before the letting of any contract for the construction of such buildings or the issuance of any permit therefor."

The signers are R. C. McMillan, A. E. Bird, A. M. Boyd, C. McNeill, G. E. Preble, A. C. Black, H. Anderson, N. L. Galbraith, J. S. Fluor, H. A. Skiles, Bishop & Cole, G. C. Pickering, E. W. Smith, C. M. Jordan, Fred Siefert, Pendleton Lumber Company, S. Hill & Son, F. P. Nicky Hardware Company, John McPadden, E. A. Bell, Robertson & Packard, Griffith Lumber Company, Elwing & Tedford, G. W. Opp and C. H. Chapman.

In speaking for the petition, Black said that it had been charged that the proposed change was in the interest of the architects. He said that it is not necessary to go to an architect to get plans, as some contractors would draw them. He thought the plans passed upon by the inspector would tend to lessen fire hazards.

Alderman said he could see no need for getting blue prints of a \$40 or \$50 barn. Grubb said that he would favor excluding the requirement for buildings to cost less than \$500.

It was brought out that Santa Ana's building ordinance does not fit conditions here. McPhee said it covers fourteen columns in small type, and ought to be reduced to one-eighth its length. On McPhee's motion, J. S. Fluor, C. M. Jordan, A. C. Black, C. McNeill and A. E. Bird were appointed as a committee to draw up a new building ordinance.

Permits Issued
Permits were issued to A. R. Burns to place a lunch stand at the corner of Bush and Fourth streets; to Taylor's Cash Store for an electric sign; to the motorcycle shop at 301 East Fourth for an electric sign.

The petition of J. M. Atkins and others that some steps be taken to prevent damage along Fairview avenue, from storm water drained from East Fifth street, was referred to the street committee and city engineer.

No Appointment
Applications were received from Ike Fields and Frank Coones for appointment as driver of the new auto fire truck. The appointment of the driver was deferred until next Monday night.

Do It By Request
Mayor Ey is evidently a believer in control through kindness rather than force. At least, last night he said that he believed drivers of auto stages would stop their machines on East Fifth street instead of on Main between Fourth and Fifth, if they were requested to do so by the city authorities.

"We haven't time to pass an ordinance," said he, "for the Christmas trade is here, and stores along that street are damaged by the fact that the stages take up all the curb. They could park on Fifth and come around to Fourth and Main to pick up passengers."

City Attorney Heathman said he thought the city had best incorporate its wishes into an ordinance, and then it could speak with authority.

Ey's suggestion, however, found food, for on McPhee's motion Ey and City Marshal Jernigan were appointed as a committee to see the stage drivers and present the request outlined by the mayor.

Licenses Ordinance
Trustees McPhee and Greenleaf and City Clerk Burke were appointed as a committee to meet with a committee of the Merchants & Manufacturers' Association this evening to go over provisions of a proposed new license ordinance.

On Grubb's motion, the city engineer was instructed to make an estimate of the cost of lessening abrupt dips on West Fifth street. Grubb said that the dips are too abrupt, especially for a street that will be traveled as much as West Fifth.

Grubb reported that as yet arrangements had not been made to get property owners north of Washington on Main to agree to pay for the cost of repairing bad sidewalks. Grubb, McPhee and street Superintendent English were appointed as a committee to take the matter up.

Vandermast Named
Asa Vandermast, well known clothing merchant, was appointed as a member of the Board of Health to fill the vacancy caused by the death of E. A. Stockslager. City Engineer Bonebrake was also added to the health board. Vandermast was appointed on McPhee's motion.

EVERETT NEAR DEATH, RESULT OF BAD BURNS

Blazing Gasoline Thrown Over
Him—Women's Club
Meeting

HUNTINGTON BEACH, Dec. 15.—Prof. A. W. Everett of this city, for a number of years a member of the County Board of Education and more recently employed as principal in the Los Angeles schools, is hovering between life and death as a result of burns suffered late Saturday evening. Mr. Everett was filling a gasoline stove which was burning, and an explosion resulted, which threw the burning liquid over his clothing, face and hands. His face and hands and a considerable part of his body were badly burned. It was only by the quickest action on the part of himself and other members of the family that the fire was put out before the clothing was entirely burned from his body.

In the effort to save his life the flames were allowed to spread in the house, almost destroying it.

In the series of county debates held last Friday evening, Huntington Beach lost its debate away from home to Santa Ana and won at home from Fullerton. All the schools in the league had the same experience, the negative team winning in every instance. As most of the schools sent their strongest team away from home, the general impression is that the judges paid more attention to the merits of the question than to the merits of the debaters. The next debate in the series will take place January 8. Santa Ana will debate at Huntington Beach and Huntington Beach will debate at Orange.

The last regular meeting of the Woman's Club before the Christmas vacation was held at the home of the president, Mrs. Clark R. Stanford, at the corner of Ocean avenue and Thirtieth street. It was a social afternoon and the entertainment consisted of progressive games in which Mrs. G. A. Shank won the first prize and Miss Helen Weed the second. Through the efforts of Miss Grace Moore of the domestic science department of the high school the club has secured a date with Miss Edna H. Rich, president of the Santa Barbara Normal for Wednesday afternoon, January 13. Miss Rich will discuss "Modern Approach to Efficiency in Home Making," and the meeting will be open to all the ladies of the city.

The club has rented Odd Fellows hall and in the future all meetings of the club will be held at that place.

The Fraternal Aid Association has

YOU CAN'T BRUSH OR WASH OUT DANDRUFF

The Simplest and Quickest Way
is To Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and every one notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

"CRIME AND PENOLOGY" TOPIC OF MONDAY CLUB

The Monday Club listened to a most excellent paper last evening written by the secretary of the club, Mr. Ben H. Barr, on the subject of "Crime and Penology." The theme is one of timely interest and Mr. Barr's treatment was comprehensive and scholarly. He defined crime and the criminal and traced the evolution of theories of punishment through four stages, viz: (1) Vengeance or retribution, (2) Repression, (3) Reformation and rehabilitation, (4) Prevention.

The speaker showed in an interesting way how penology has points of contact with nearly every science and art, especially biology, government, philosophy, religion, pedagogics, psychology and sociology. Death is the most ancient of penalties, the most effectual mode of getting rid of troublesome characters. The various methods of taking human lives were mentioned: Burning, hanging, drawing, quartering, breaking on the wheel, crucifixion, crushing, stoning, burying alive, boiling, starving, poisoning, shooting, and lastly electrocution.

The criminal today has become an object of attentive scientific study. The attempt to reform him has led to the invention of three systems of prison discipline, known as the Pennsylvania, the Auburn, and the Elmira systems, and penologists are divided into three camps according as they favor one or the other of these systems. Neither system can boast of complete success, but it may be said that each has done much toward the renovation of the criminal. All agree that the principal hope of any material reduction in the volume of crime lies in its prevention, rather than its cure. The remedy must be sought in moral hygiene.

The speaker carefully defined crime and distinguished it from vice and sin, and then dealt with the causes of crime. Every crime has its origin in a multiplicity of causes ramifying back into our entire social life. Crime is a variable quantity, the product of the aggregate social condition and tendencies of a people at a given period in its history. Roughly classified the causes fall under three heads: (1) The material basis. (2) Cosmic causes, or the natural environment. (3) The social economic causes.

Alcoholism is one of the most powerful factors in the causation of crime. The most evident and serious effects of alcoholism is pauperism. The progeny of alcohol are blind, paralytic and impotent. In the Elmira prison out of 6300 criminals under age 30 per cent had drunken parents.

The problem of the prison is one which is today demanding the most scientific and earnest attention. Criminals are themselves teaching the reformers how and where to begin their work. The dangers of association are a study in itself.

In this connection, Mr. Barr described the various efforts that were being tried in the way of the reformation and character-building of the criminal. The criminals are thrown upon their honor, are treated as men, and everything done to develop a sense of responsibility. In the Canadian prison of Guelph, there are no walls about the building, and the few guards go unarmed. Men go about in ordinary clothes. The cells are spacious and well-lighted. The men are taught how to work. We are just beginning to learn how we can help these people. In order to be good to a man we have to find out his way of being good, then we have to be good to him in his own way. The great leaders of men today are those who can lead men as they want to be led. The day of driving is past.

Increase Your Wealth

by investing in land near

Templeton or Paso Robles

This locality has been producing a very superior quality of apples, pears, prunes, cherries, grapes, almonds, and walnuts without irrigation for many years, but it was only recently that any particular attention was paid to the development of the fruit and nut industry.

During the last year or two many thousands of acres have been set out by men from Southern California and orders have been placed with nurseries for trees to plant five thousand acres this coming season.

The Templeton-Paso Robles district produces a wider range of products than is grown in any other one locality between Los Angeles and San Francisco. This locality possesses several distinctive features which make it especially attractive for investment and home building.

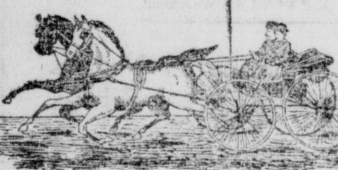

Good ranches, most any size, \$75.00 to \$150.00 per acre. Well located young orchards in fine condition at \$275.00 to \$400.00 per acre. Near railway station and within easy motor trucking distance of deep water port puts you in touch with the world's markets.

NEW SCHOOLS ARE PROPOSED

Beach City is Talking of Bonding Itself For Buying Two New Sites

HUNTINGTON BEACH, Dec. 15.—The grammar school board will soon call an election to vote bonds for the purchase of two new sites and the erection of buildings thereon to accommodate the rapidly growing school population. One site of seven acres has already been selected by the school officials. This tract is east of Palm avenue and between Fourteenth and Sixteenth streets, and is priced to the district at \$12,000, and is owned by the Huntington Beach Company. The owners agree to donate two blocks near the center of the city for park purposes as soon as the new school building has been erected. Another site will be selected in a few days on the east side for the accommodation of that section of the city.

A LIVE SPORT LETTER

By Hal Sheridan

NEW YORK, Dec. 15.—Freddie Welsh hasn't fought now for the last thirteen days. It's the longest period of truce the little English lightweight title-holder has observed since he started slugging Americans and being slugged by Americans some seven weeks back. Freddie was due for a rest. He was over-trained and stale. He showed this when Duffy out-pointed him in Buffalo (thanks to Buffalo for correcting a previous misstatement); and he showed it more when Young Jo Shugrue put the Jersey kibosh on him at the Madison Square Garden on December 2.

Although he hasn't worked at his regular trade for two weeks, Freddie has been able to larrup the tar out of

OLD-TIME COLD CURE—

DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Lumber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

the wolf at the door by raking in divers and sundry shekels or farthings by two "exhibition dates," as he called them at Wilkesbarre, Dec. 10 and 11.

Once more we arise to remark in strident tones that the Federal League is putting the baseball undertakers to complete shame. Hopping blithely into the midst of Organized Baseball, to sign the greatest pitcher the game has produced at \$20,000 a year, constitutes a horrid faux pas among all elite corpses or ghosts. 'Tisn't done at all, you know.

If Illinois, by any chance, is added to the repertoire of eastern colleges next fall, the West stands more than an even chance of evening up the final tally in the intersectional melee. Michigan should give any eastern team—Harvard included—a bitter battle unless seven or eight of those booked to return lose their eyesight or a leg or two. Notre Dame, also, should be stronger than she was in 1914. As for Illinois, if Zuppe does only as well next year as he did last fall any eastern eleven that faces the Illini will know they haven't been playing tiddle-de-winks.

VILLA PARK

VILLA PARK'S NEWS LETTER

VILLA PARK, Dec. 15.—Mr. and Mrs. Thurston, Mr. and Mrs. A. A. Lee, Miss Hasty and Mr. Richardson were among the Villa Park people who attended the lecture by Fred Emerson Brooks at Orange Monday evening of last week. This was the third of the series of the entertainment course under the auspices of the Orange Union High school.

Mrs. Elma T. Lee returned to her home Wednesday. She has been in Los Angeles and Pasadena at the homes of relatives since the death of her brother, Mr. Way, of Los Angeles.

Mrs. Poppewell is enjoying a visit from her brother, Mr. Ferguson, and his family, of Albany, Mo. The Fergusons arrived a week ago Saturday and expect to remain for the winter. Robert Ferguson, another brother, who lives in Long Beach, came up Wednesday for a short visit with his brother and sister.

Miss Henrietta Hughes came from Paradise Valley, where she is teaching, to attend the wedding of her sister Wednesday evening. She returned the same night.

The meeting of the Modern Priscillas last week was held at the home of Mrs. Palmer of Olive. The usual embroidery and sewing occupied the time. Light refreshments were served toward evening. The next meeting will be at the home of Miss Elizabeth Lee.

Miss Elma Lee was married to Mr. Collier at the home of the bride's parents last Wednesday evening. Only relatives and a few close friends were present at the ceremony. The couple left Thursday morning for San Diego. On their return they will make their home at Villa Park.

NEWSBOY WINS POET'S FAME

CHICAGO, Dec. 15.—Praised by Ruskin, Goethe and Swinburne by verse written while he was in his teens, Schamel Iris, once a hustling newsie, is doing literary hack work, teaching Italian and fingering happily today "Lyrics of a Lad," his first book, and what is said to be the first book of verse by an Italian published in English in this country.

Iris was a newsie when Ruskin, the great English critic, praised his verse. When he was thirteen the poet Swinburne wrote to a New York paper a tribute to his verse. Yet in spite of this recognition Iris continued as a factory worker. He is now twenty-five years old, and so far as finances are concerned, a literary hack, but his book is on sale, and Iris is happy.

"It will rebound to the credit of my dear Italy," he says.

Children's Coughs—Children's Colds Both Are Serious

LOS ANGELES PRODUCE MARKET

Demand for dried fruit is continuing very active, and dealers are gradually advancing quotations as the demand will permit. Even peaches, which sold at a lower price than ever before in Southern California, have been moving upward, and another rise in the next few days is looked for. Apricots are getting a good call. Prunes, which advanced last week, are beginning to look to still higher levels. Apples are not moving as fast as most of the other fruits, for the reason that the fresh fruit is so very plentiful and is being shipped to all consuming points in the country, distribution of fresh apples has been reported in a wider field in America than ever before known.

On the local market of vegetables yesterday morning several advances were reported, peas and beans both showing higher figures. Frost in some parts of Southern California was reported by producers, and this is going to mean immediate advances in numerous lines of vegetables. Summer squash showed an advance to \$1.00@ \$1.10 a lug box. Tomatoes were up to 85 cents, and peas and beans ranged from 9 to 12 cents a pound, according to variety.

AMERICAN GIRLS CONDUCT WAR HOSPITAL

Queen Mary Interested—Appeal by Lady Maxwell for English Men to Enlist

B. P. M. SARLE
(United Press Staff Correspondent)
LONDON, Nov. 14.—(By mail to New York.)—Queen Mary has taken a personal interest in the work of the American Women's War Relief fund. The other day she made a visit, accompanied by Lady Caget (formerly Miss Julia Moke, of New York) and Mrs. Lewis Harcourt (formerly Miss Mary Burns, of New York), wife of the colonial secretary, to the hospital which the American women residents in England are conducting at Pagnon, Devonshire. More than 600 soldiers have thus far been treated in this institution. In addition to the large staff of thoroughly trained English nurses two units of the American Red Cross have now been installed at the hospital. All who have visited the place are struck not only with the comforts provided for the patients but

their general cheerfulness. One Irishman told the Queen that although he had been in a trench half full of water for nine days before he was wounded, his only worry now was how long it would be before he had recovered sufficiently to return to the same trench to help his comrades. Another, who had just received word that in recognition of his gallant action in defending a bridge until the artillery had safely passed he had been granted a commission, remarked to the Queen: "It is only luck that they happened to pick me out. There were twenty of us holding that bridge, and we all did the same."

Besides this hospital work, the fund has presented a number of motor ambulances to the war office, which are now being used with excellent results just behind the firing line in Flanders.

Among the other activities of the American women has been the establishment of workrooms for the employment of women and girls who would otherwise be without resources on account of the war. Four of these are now in full operation—in St. Pancras, Woolwich, Greenwich and Islington. The Duchess of Marlborough (Consuelo Vanderbilt) is particularly interested in this phase of the American relief work.

"Are you still asleep?" writes Lady Maxwell, wife of Lieutenant-General Sir John Maxwell, commander-in-chief of His Majesty's forces in Egypt, in a renewed appeal to the young men of England to forsake their football, races and other sports and join the army which Lord Kitchener is having so much difficulty in raising. "The other day," she says, "more than 300,000 men attended football matches throughout the country. Think of it—300,000 men! Enough to help our gallant men to drive the Germans helter-skelter back to Berlin; to snatch devoted Belgian from their murderous grip; enough to break up once and for all the power of this bloody despot. Three hundred thousand men who sat in gaping rows and watched others (strong, powerful young men these, just the stuff that soldiers should be made of) kicking a piece of leather up and down a field! What a noble amusement in war time!"

"While you lie in your warm beds think of your brothers in blood lying out in the cold and wet, facing the awful destruction of the guns both by day and by night. Have you no wish, no generous impulse to go and relieve them, to take their places, so that they, too, can rest and sleep for a little while?"

"You know that you are needed now—not tomorrow, but today—you who sit at home and sun yourselves in the false glamour of the foolish motto 'business as usual.' This is not business time, it is war time; not the time for making money, but the time to fight your country's foes. Will you be left behind with the scum and the dregs?"

"Go out, I say, and fight while the honor and glory of volunteering is yours. Don't wait to be driven like cattle to the slaughter (for this must come if you won't go); go out and fight like men, as Britain's sons have always fought."

A rosary of pearl and silver given him by a French woman was the talisman that brought Private A. Lightfoot, of the Duke of Wellington's West Riding Regiment out of a particularly hot scrap with only a slight wound, according to his statement made in a hospital here.

"I was on sentry duty behind a road barricade when I saw about fifty Germans crawling through a field," he said. "When they got near enough I started potting them as fast as I could, until I had reduced their number to four. They made a rush in, when suddenly a shell from their side dropped on them and laid them all out besides wounding me. It was the rosary that saved my life."

STOP THE CHILD'S COLDS. THEY OFTEN RESULT SERIOUSLY. Colds, Croup and Whooping Cough are children's ailments which need immediate attention. The after-effects are often most serious. Don't take the risk—you don't have to. Dr. King's New Discovery checks the Cold, soothes the Cough, allays the inflammation, kills the germs and allows Nature to do her healing work. HEREAFTER NEW STREET NAMES TO BE USED

Law Changing Designation of a Number of Streets in Effect Tomorrow

With tomorrow legally the names of a number of streets in Santa Ana pass out of existence and new names take their place. A month ago the city trustees passed an ordinance making changes, and tomorrow the ordinance becomes law.

People living on the streets that are re-named should take up the new names immediately, use them in their correspondence and conversation, and quickly establish in the minds of the people the names that are established by law.

All of the lettered streets drop out of existence as such. The changes made are:
C street to Santiago.
D street to Poinsettia.
E street to Garfield.
F street to Lacy.
G street to Minter.
Depot street to Fruit.
Orchard street to West Tenth.
Nakomis street to North Shel-ton.
Hanna street to North Flower.
Bates street to North Flower.

LAST SMOKER THIS SEASON

Athletic Club to Wind Up Successful Year Wednesday Evening

The last big smoker and boxing show of the season will be staged in the Athletic Club gymnasium on Wednesday evening of this week. A good card has been arranged with several of the fastest and best boys on the coast in the line-up.

The first bout of the double main event will bring Jack Gordon of Portland and Walter South of Los Angeles together in a return match over the six round route. In the big event of the evening Walter Williams of Portland, Ore., Pacific Coast amateur champion, will meet Danny Lyons of Los Angeles in a six round mill.

Oran Shodgrass of Santa Ana and Jimmy Arrouze of Los Angeles will meet in the six round semi-windup of the evening. In the preliminaries Jack Hendricks of Orange meets Jack Clark of Los Angeles and Red Matthews of Anaheim meets Red Saville of Los Angeles. A special wrestling match will complete the program for the evening.

BLAZE STARTS IN CLOTHES CLOSET

Fire of unknown origin did between \$100 and \$150 damage at the Gus H. Eberlein home, 416 North French street, shortly after 8 o'clock this morning. The blaze was first discovered in a clothes closet in one of the bedrooms. C. W. McNaught of the A. N. Zerman feed store, on East Fourth, ran to the scene with a fire extinguisher and succeeded in putting out the blaze in the closet by the time the fire department arrived. He was almost overcome by the smoke and fumes. The damage was principally to clothing. The cause of the blaze is unknown.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of sage tea and sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended on to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known down town druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that no one can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and abundant.—Advertisement.

CLEVELAND WANTS THREE-CENT LIGHT

COLUMBUS, O., Dec. 15.—Cleveland, the city that fought for and obtained three cent street car fares, today opened its fight here before the state utilities commission for three-cent electric light.

The commission heard arguments by attorneys for the city against the appeal of the Cleveland Electric Illuminating company to overrule an ordinance setting three cents per kilowatt hour as the maximum price for electricity in Cleveland. Counsel for the company was also present.

UNCLE SAM TO GET BIDS ON SUBMARINES

WASHINGTON, Dec. 15.—The Navy Department was scheduled today to open its bids for several new submarines. One of the group will be larger than Germany's famous death-dealing vessel, the U.S.

The department plans call for the largest submarines in the world—a vessel of such power and construction that she can accompany the year amounts to far above that number.
